

ENTERPRISE TECHNOLOGY FOR VISION BENEFIT ADMINISTRATION

Industry-leading SaaS platform to drive automation and bring vision benefit administration into the digital age

Technology is bringing new levels of efficiency to vision benefit administration, helping to reduce costs while ensuring a better provider and member experience.

SKYGEN's Enterprise Technology is a flexible, scalable Software as a Service (SaaS) platform that helps vision benefit administrators design, develop, and launch new products quickly, while reducing costs with automatic claims processing and streamlined data management. Combined with our Provider Portal, we enable paperless authorization and claim processing, as well as ordering and fulfillment of vision materials from labs. The result is an unmatched ability to manage eye care, from routine services to medical eye exams and surgical procedures.

SKYGEN's Enterprise Technology is comprised of a relational database with more than 40 modules, each designed for a specific benefit administration process.

ENROLLMENT

Automated member enrollment file processing

NETWORK MANAGEMENT

Provider network management and multiple payment models

REPORTING

Data analytics, real-time executive dashboards, and built-in standard reports

PROVIDER DATA MANAGEMENT

Comprehensive, end-to-end provider data management supported by self-reported data from provider portal

CLAIM PROCESSING

Continuous claim processing and daily payments

WHY SKYGEN

UNIQUE VISION-SPECIFIC FEATURES

- Configurable library of vision codes
- Real-time benefit availability for vision services and materials
- Customizable vision authorization guidelines and requirements
- Formulary design configuration and price management
- Provider rating tool
- Provider profiling reports
- Provider data management tools
- Self-service data analytics

LAB INTEGRATION

SKYGEN USA's lab integration allows providers to create material orders and fulfill them using the lab they want. Our Enterprise System then automatically displays submitted orders, allowing

REAL-TIME ACCESS TO VIEW AND EDIT material order details.

INDUSTRY-LEADING SECURITY

Our Enterprise Technology has achieved HITRUST CSF certification. The HITRUST Common Security Framework (CSF) is an information security framework targeted to the healthcare industry.

This commendation proves our **DEDICATION TO PROTECTING** our clients' data.

THE **ENTERPRISE SYSTEM**

LAB CHOICE

gives vision providers the ability to select the lab of their choice based on factors such as quality, availability of materials, order turnaround times, cost and other parameters. This flexibility helps ensure providers are able to meet member needs while saving time during the ordering process.

WORLD-CLASS, QUALITY SOFTWARE

OUR ENTERPRISE TECHNOLOGY exceeds industry standards for quality, with an
