ENTERPRISE TECHNOLOGY FOR DENTAL PLANS

Industry-leading SaaS platform bringing innovation to dental payers in the digital age

Technology hasn't just changed the way dentists deliver care. It is also bringing new levels of efficiency to dental payers, helping them reduce costs while ensuring a better provider and member experience.

To remain competitive in the industry, it's crucial for dental payers to have technology that positions them to succeed in the digital age. That's where SKYGEN's Enterprise System, our Software as a Service (SaaS) platform for dental benefit administration, can help payers future-proof their dental market and achieve substantial savings in benefit costs.

SKYGEN's Enterprise System is comprised of a relational database with more than 40 modules, each designed for a specific benefit administration process, resulting in greater automation, efficiency and effectiveness in managing specialty benefits.

ENROLLMENT	NETWORK MANAGEMENT	REPORTING	PROVIDER DATA MANAGEMENT	CLAIM PROCESSING
Automated member enrollment file processing	Provider network management and multiple payment models	Data analytics, real-time executive dashboards, and built-in standard reports	Comprehensive, end-to-end provider data management supported by self-reported data from provider portal	Continuous claim processing and flexible payment cycles
