

SKYGEN Dental Hub: A game-changing platform connecting the dental industry

We partner with
healthcare payers,
delivery systems, and
state regulatory agencies
to administer dental and
vision benefits.

SKYGEN's solutions
serve in all

50

states, plus the
District of Columbia

125,000+

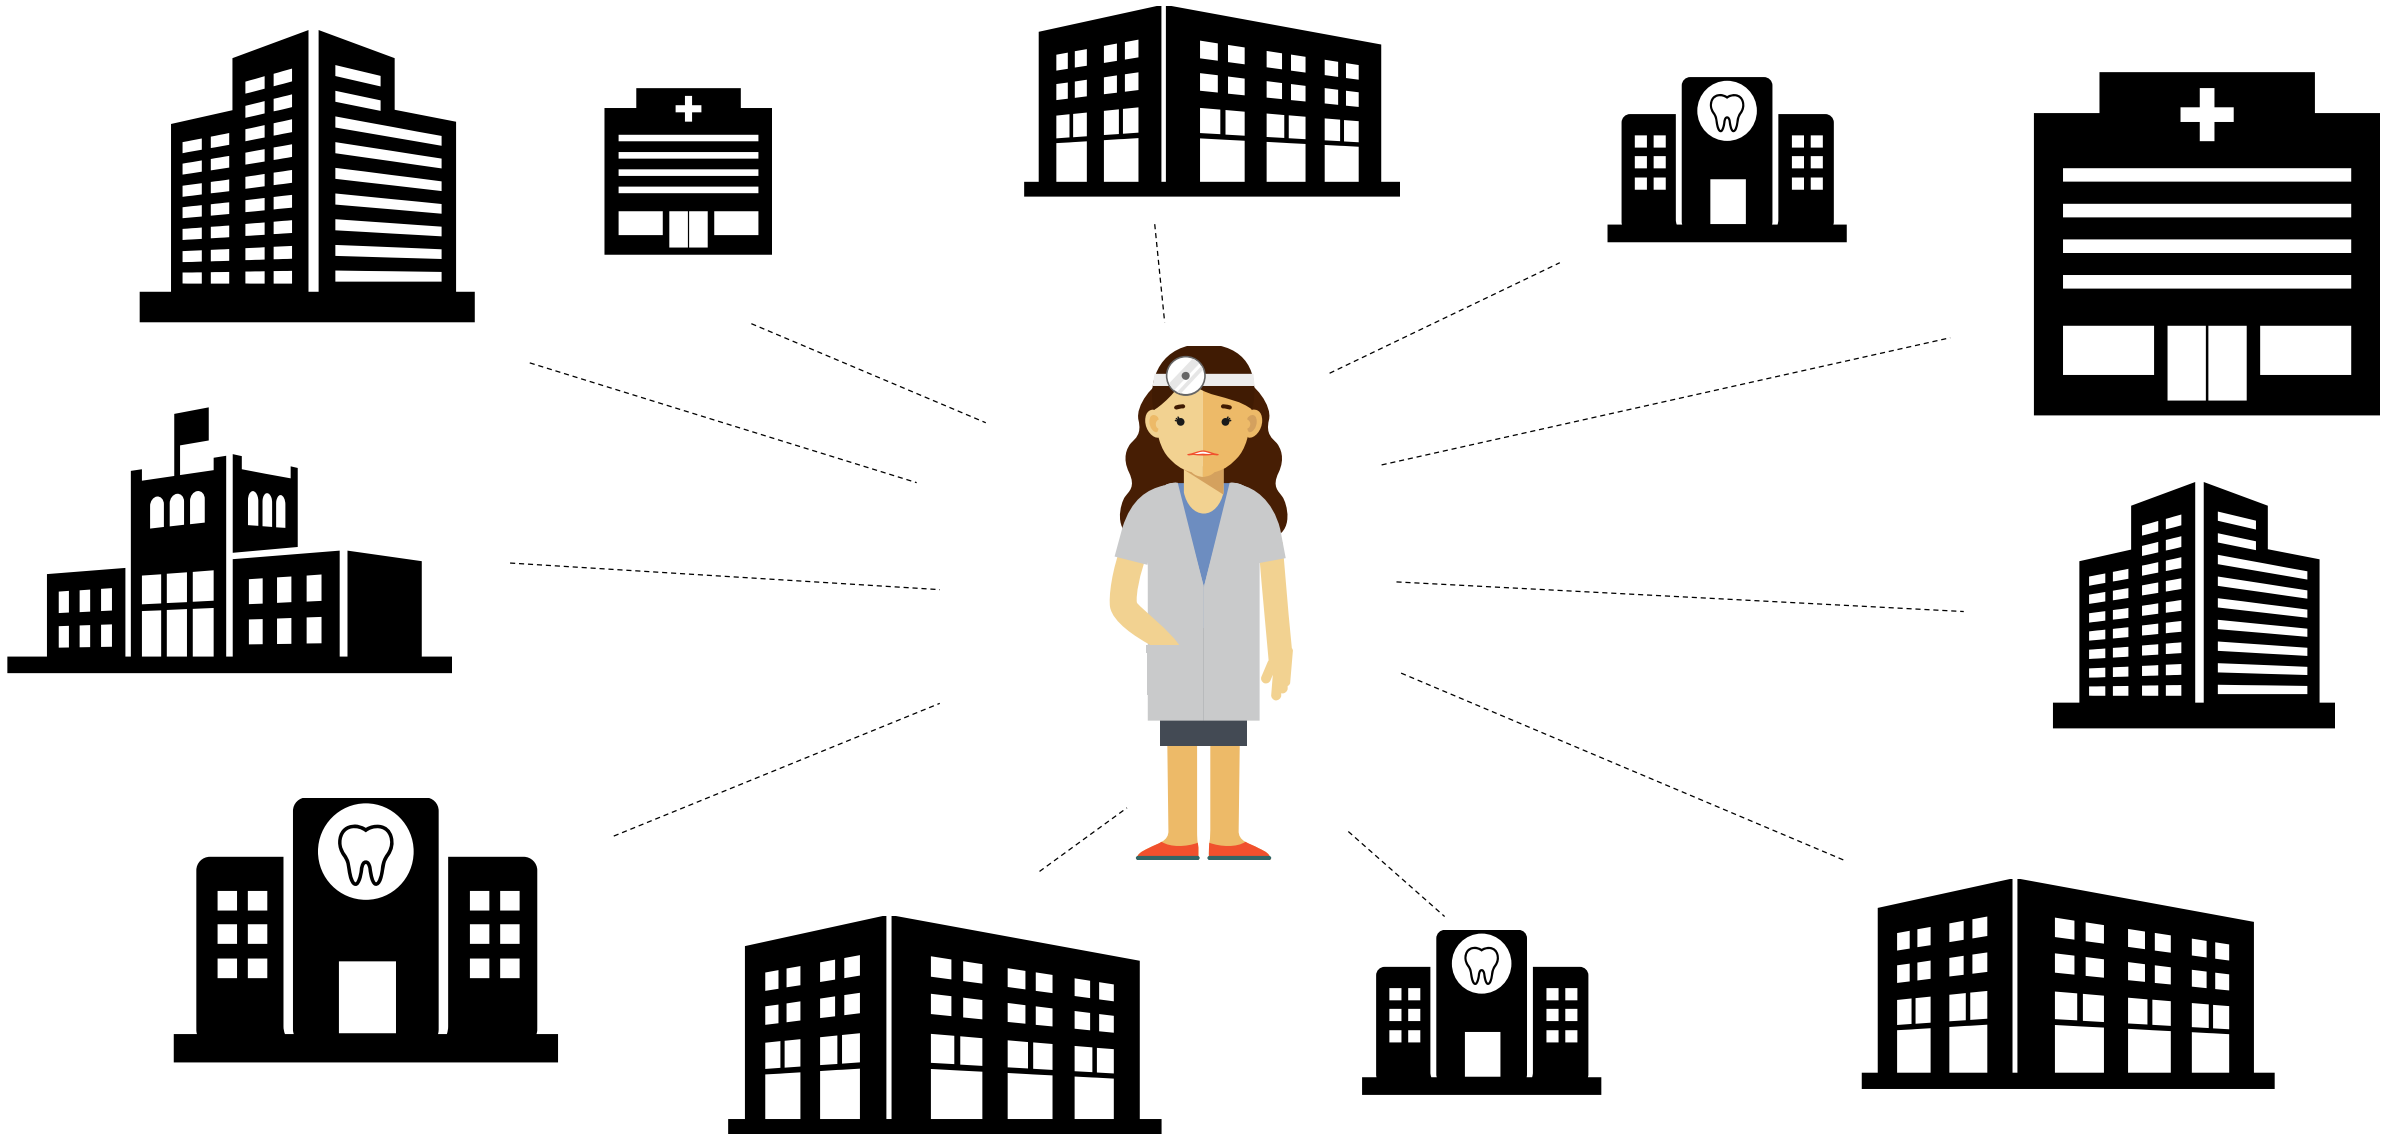

providers supported

Nearing

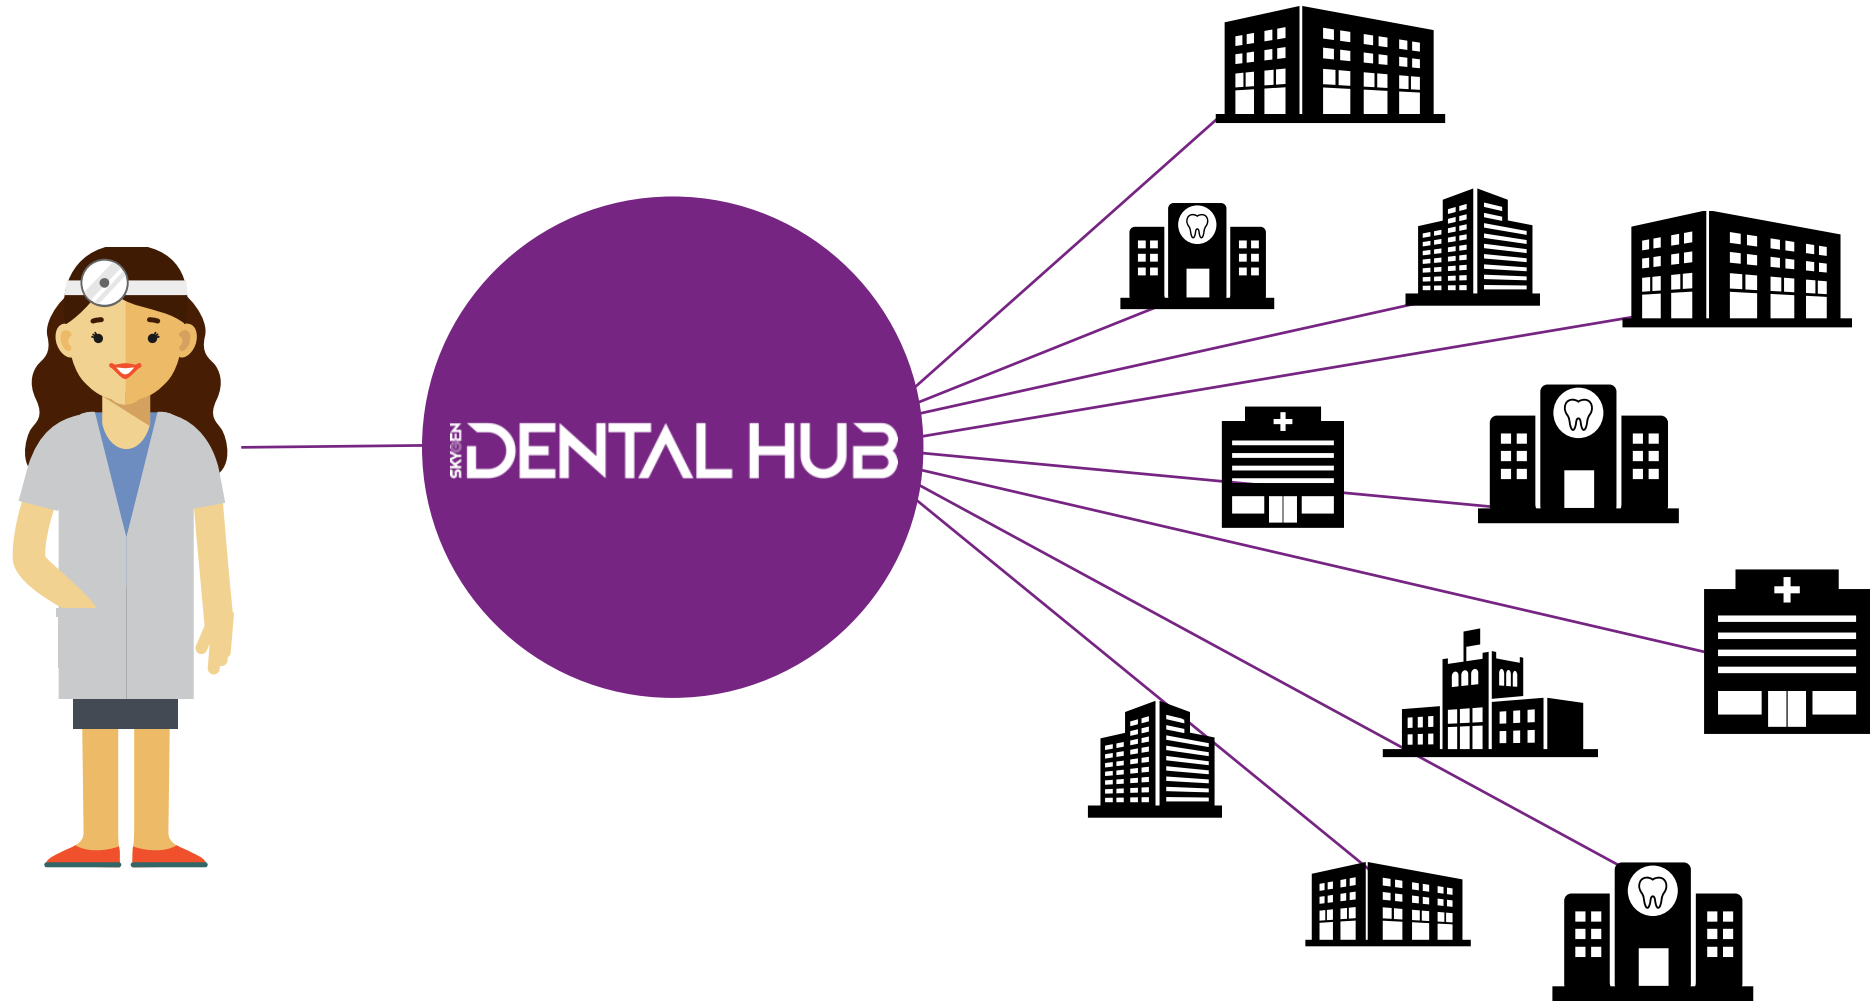

45M

lives managed with
SKYGEN technology

REDUNDANCY, REDUNDANCY... REDUNDANCY

THERE IS A BETTER WAY TO DO IT!

EVERYTHING ABOUT DENTAL WILL CHANGE

01

CONNECTING THE INDUSTRY

At its core, the Dental Hub is a modern communications platform. Like no other service, It will bring together all in the industry who need to talk to each other, work with each other, or buy and sell products and services from each other.

02

OFFERING A NEW VISION

The Dental Hub's vision of largely virtual administration is what dental payers and practices have been craving: tech-enabled, self-service solutions that yield substantial administrative savings and a better patient experience.

03

SOLVING INDUSTRY PROBLEMS

By bringing the industry together in new ways, the Dental Hub will solve long-standing industry problems – offering clean provider directory and payment data, a one-stop-shop for credentialing, and a 30 second process for onboarding providers.

04

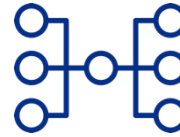

BREAKING NEW GROUND

Through cutting-edge technology – including the use of artificial intelligence – the Dental Hub also will offer ground-breaking products and services such as Real-Time Treatment Plans, Real-Time Patient Responsibility Reports, and practice analytics.

YOU'RE
DONE

PROVIDER DIRECTORIES

Provider Verification

- Provider enters and maintains their own information
- Ensures accuracy as the information comes directly from the source

One and Done Solution

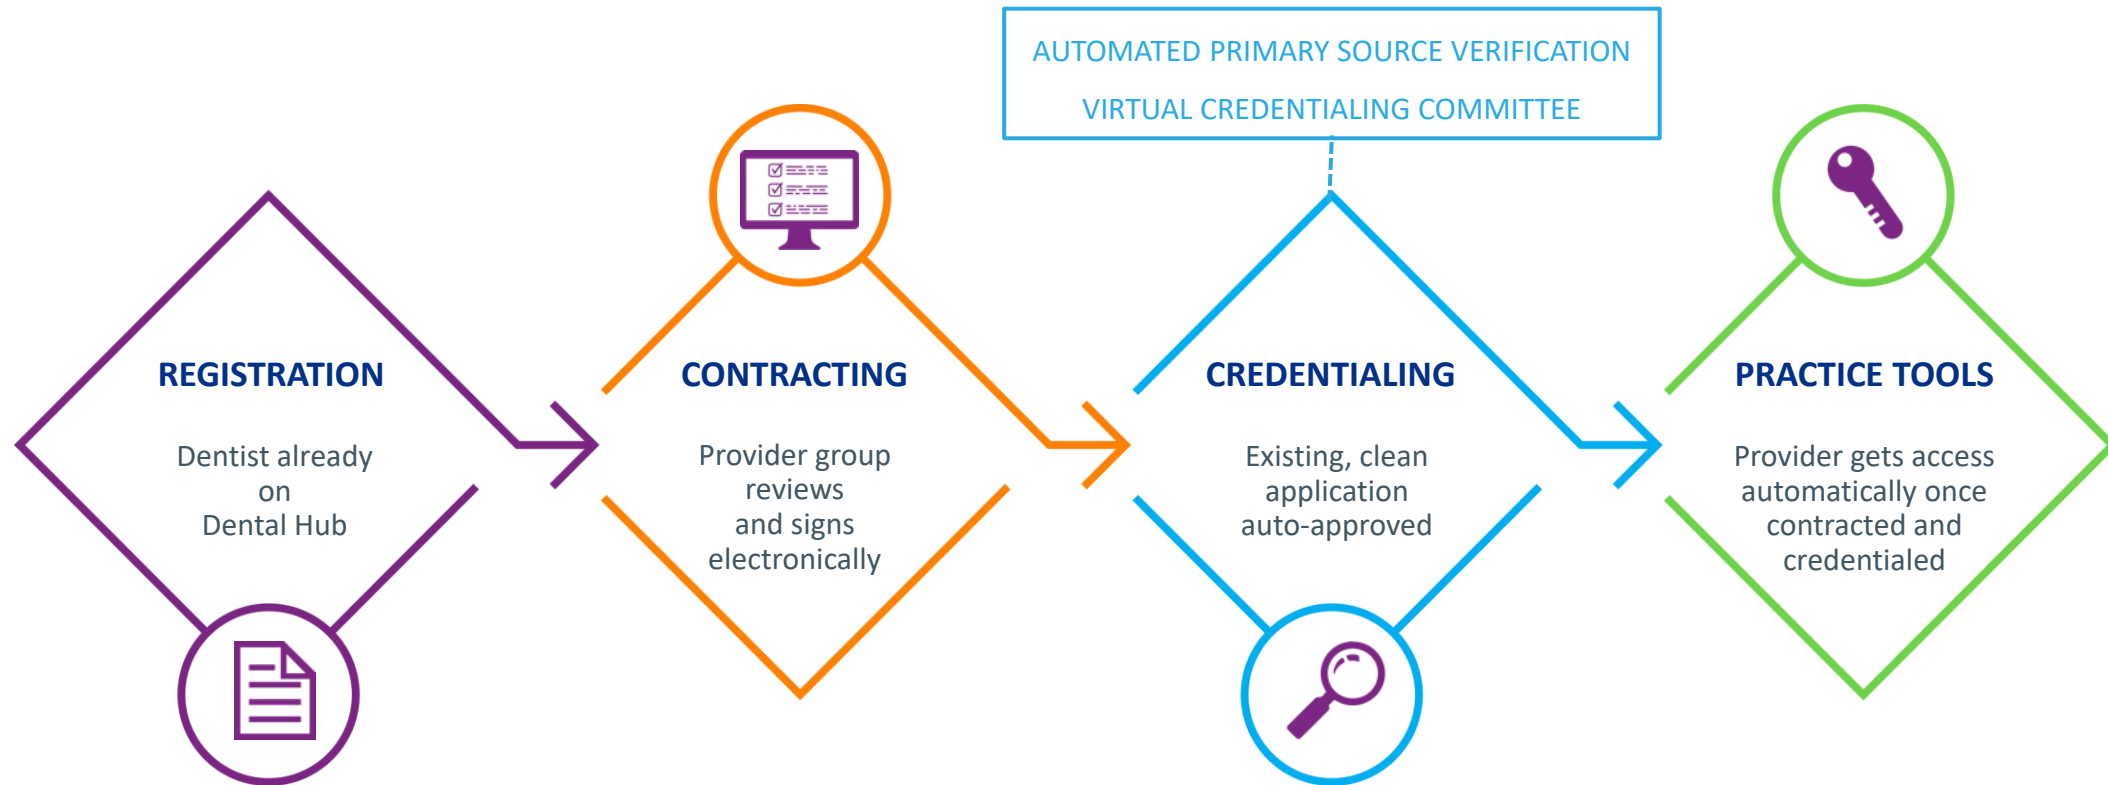

- Provider enters their information *just one time*
- Every payer who subscribes to that provider record has updated information in real-time

Compliance

- State and federal regulations continue to make compliance more and more burdensome
- However, the Dental Hub's automated notifications and workflows will ensure provider information stays up to date without the need for manual outreach

AUTOMATED CREDENTIALING

Minutes, not months

STOP RELYING ON ESTIMATES
