

SKYGEN GOLD CARD PROGRAM

Elevating Provider Efficiency & Patient Care with Solutions

SKYGEN's Gold Card Program is a transformative and flexible solution designed to eliminate prior authorization requirements for high-performing dental providers. By recognizing and rewarding providers with a history of high approval rates, this customizable program streamlines administrative processes, enhances provider efficiency, and ensures timely patient care.

HOW THE GOLD CARD PROGRAM WORKS

The Gold Card Program grants qualified providers an exemption from prior authorization requirements for a 12-month period. Providers qualify based on a 90% prior authorization approval rate for clinical services over the past 12 months and must have performed at least 30 procedures during that time. SKYGEN continuously monitors utilization patterns to ensure appropriate oversight.

KEY BENEFITS FOR PAYERS

Enhanced Provider & Member Satisfaction

Reducing administrative burdens makes it easier for providers to deliver care promptly, improving both provider experience and patient outcomes.

Improved Access to Care & Proactive Treatment

By eliminating delays, members are more likely to receive timely treatment, reducing the risk of avoidable emergency interventions or costly long-term complications.

Competitive Advantage for Payer Networks

Offering a Gold Card Program makes your network more attractive to high-quality providers, encouraging them to join and remain in your plan.

Continuous Monitoring & Risk Mitigation

While the program rewards high-performing providers, SKYGEN ensures strict oversight, with ongoing reviews to prevent fraud, waste, and abuse (FWA) and maintain quality standards.

Encourages Digital Transformation & Efficiency

By requiring electronic prior authorizations as part of program eligibility, the Gold Card Program promotes greater adoption of digital workflows among providers, driving long-term efficiency and alignment with payer technology strategies.

WHY PROVIDERS LOVE THE GOLD CARD PROGRAM

- 1. Enhanced Reputation & Preferred Status** – Being part of the Gold Card Program signifies a trusted provider status, making participation in payer networks even more attractive.
- 2. Predictability & Practice Efficiency** – With fewer administrative steps, providers can schedule and perform treatments faster, improving operational efficiency and allowing providers to focus on delivering care rather than managing paperwork.
- 3. Improved Patient Satisfaction & Health Outcomes** – By eliminating prior authorization delays, providers can deliver timely care, enhancing the patient experience and building stronger patient relationships. Immediate access to necessary treatments helps prevent minor issues from becoming complex, ensuring better long-term health outcomes for members.
- 4. Faster Revenue Cycle** – With no prior authorization delays, providers can complete treatments sooner, submit claims faster, and receive payments more quickly, leading to improved cash flow and financial stability generally enhancing provider satisfaction with the dental plan.

Built for Success – Designed for Rapid Deployment

SKYGEN's Gold Card Program is built for rapid initial deployment. Our expert team ensures a seamless rollout, minimizing disruption while maximizing benefits for payers, providers, and members. With SKYGEN, you have a trusted partner ready to adapt to your needs and deliver results quickly and efficiently.
